

SENSATION®
The Art of Beauty

Gives your hair volume and movement

UNIVERSAL DIFFUSER WITH CYCLONIC TECHNOLOGY

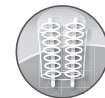

WIND SPIN is an innovative diffuser featuring cyclonic technology which delivers volume and movement to every hairstyle.

Soft silicone base which attaches easily to all hairdryers on the market.

Simple to use: divide hair into locks, insert one lock at a time into the diffuser – the action of the hairdryer causes the lock of hair to begin to rotate. In just a few minutes your hair will have more volume.

WIND SPIN contains internal deflectors which allow you to choose the rotation direction desired for each lock of hair, creating different hairstyles each time, always in style.
