VARIABLE FREQUENCY MUSCULAR ELECTROSTIMULATOR 15 LEVELS OF INTENSITY

B SIDE TRAINER is an EMS (Electrical Muscle Stimulation) technology device commonly used by athletes and physiotherapists to rehabilitate and strengthen muscles.

It offers a standard program with a 23-minute variable frequency session. Choose between 15 levels of intensity. This therefore allows you to personalise your workout.

Designed specifically for use on the glutes, B SIDE TRAINER helps to tone and mold them effortlessly from the comfort of your own home.
