For a faster heat
that lasts longer
and consumes less

**OSCILLATING CERAMIC
FAN HEATER**

CALDOBLÒ is the new modern design ceramic fan heater.

With ceramic technology CALDOBLÒ heats faster and cools more slowly.

This way the heat lasts longer with less energy consumption.

Thanks to the practical selector it is possible to choose from between 2 heat intensities.

Quiet and light, CALDOBLÒ is fitted with a room thermostat and the inner anti-tilt device makes it even safer.
