

# POWER CYCLONE

air washing circ cooler

**Air Circooler Technology System**  
it generates a **very powerful** air flow up to **10 meters**  
It moves more than **16.9 m<sup>3</sup>** of air per minute

**3 evaporative panels** for greater cooling efficiency

ENJOY & RELAX<sup>®</sup>

Equipped with 3 evaporative filters on 3 different sides to triple the cooling efficiency

Greater air flow compared to a normal cooler

It cools a room up to 26 m<sup>2</sup>

Control touch controls

6-litre tank

## POWERFUL EVAPORATIVE COOLER WITH ROTATING DIFFUSER

An evaporative water cooler that is used to obtain fresh and clean air in any environment. Air flow up to 10 meters. The grid by rotating continuously 360° generates an air movement equal to 30°. Intuitive commands controllable directly from the touch screen panel or by remote control. Three different fixed speeds and three different variable flow ventilation programs. Programmable timer up to 8 hours with automatic shutdown. Quiet operation 62.7 dB(A). It does not require piping for operation. Practical handle and swivel wheels, which means it can be carried and placed anywhere safely. Designed to receive air from three different inputs, it is able to lower the temperature to 6-8 degrees and cool an environment up to 26 m<sup>2</sup>. To significantly increase the intensity of fresh air, it is advisable to use in the water tank both the frozen ice boxes (contained in the package) and ice cubes. **To significantly increase the intensity of fresh air, it is advisable to use in the water tank both the frozen ice boxes (contained in the package) and ice cubes.**

Item: 987
