EVAPORATIVE BLADELESS AIR COOLER WITH CENTRIFUGAL FAN

Innovative evaporative water cooler with ionising function that is used to obtain fresh and clean air in any environment. In addition, thanks to the two ice packs it is possible to increase the cooling effect. Large air flow with possibility of automatic 360° rotation of the diffuser for multi-directional flow. Panel with touch controls to select the desired functions. Three different fixed speeds and three different variable flow ventilation programs. The timer can be programmed up to 8 hours for automatic shutdown.

It does not require pipe for cooling operation. The swivel wheels means being able to transport and place it anywhere safely.

To significantly increase the intensity of fresh air, it is advisable to use in the water tank both the frozen ice boxes (contained in the package) and ice cubes.

WITH 6-COLOUR LED LIGHT

Item: 989

Voltage: 220-240V ~ 50/60Hz

EAN Code: 8033011322344

Maximum capacity: 10 m³/minute

Power: 110W

Weight: 4.3 kg

Air speed: 8.5 meter/second

Tank capacity: 3.5 litres

Colour: grey

Sound level: dB(A)<55

Dimensions: L32.0xH78.0xP22.7 cm

8 033011 322344

SELLING UNIT:

Dimensions: L35xH81xD26 cm

Weight: 4.800 kg.

MASTER CARTON:

Dimensions: L35xH81xD26 cm

Weight: 4.800 kg.

Quantity: 1 pc.
